Berthed container ship capsized during cargo operations, Kolkata

Posted in **Accidents** by Mikhail Voytenko on Mar 24, 2022 at 13:35.

Container ship MARINTRUST 01 capsized and rested portside on pier at Kolkata port, India, in the morning Mar 24. The ship is deployed in container service connecting Kolkata and Chittagong, she was about to leave Kolkata on Mar 25. little doubt with regards to the cause of an accident – obviously, it’s stability loss with containers moving triggering the capsizing.
